

RULE VII**WATER RATES****1. RATE CLASSIFICATIONS**

Customer accounts shall be classified in 6 categories of use designated as:

Wholesale (W2) [The W2 Account designation replaced the W1 Account designation effective 2-11-2004 concurrent with a change in wholesale rate structure.]

Commercial-Temporary Use (C3)

Large Commercial (C2)

Small Commercial (C1)

Multi-Family Residential (M1)

Single Family Residential (R1)

The uses determinative of the classifications for each customer account are designated in Rule II under the definition of "Customer Accounts". The District shall classify each account according to the apparent use as described by the definitions. In determining apparent use, the District will refer to the type of structure being served, any signing relating to the structure, zoning, and consumption records. In the event of ambiguity in classification criterion or divergent uses, the account will be assigned to the rate classification appearing first from among the possible applicable classifications as listed above.

2. BILLING FREQUENCY

Single family residential accounts shall be billed bimonthly. All other accounts shall be billed monthly. For possible exceptions see Sub-sections A and B, Section 1 of Rule V. Computation of service charges for customers billed bimonthly shall be made by

doubling the monthly service charge.

3. STANDBY SERVICE CHARGE

If a customer requests temporary discontinuance of water service at a permanent connection, a Standby Service Charge will be incurred monthly during the period of non-use and such charge will be prorated for partial months of non-use. Such Standby Service Charge shall consist of the appropriate monthly service charge based upon the customer's classification. (See provision in Rule XIV, Section 3). In addition, a Trip Charge will be assessed in accordance with Rule V, Section 5, Subsections D.

4. EFFECTIVE DATE

The following rates in Rule VII, Section 5, Subsections A through F will be effective for water used on or after January 1, 2010.

5. MONTHLY WATER RATE SCHEDULES:

A. Single-Family Residential Account (R1)

Block 2: Consumption in Excess of 125% of AWC Used	\$	4.19

(See "EFFECTIVE DATE" - Rule VII, Section 4)

F. Wholesale Service Account - (W2)

Wholesale Water Rates will apply to Customers located outside the Water District's retail service boundaries who enter into a Wholesale Agreement with the District.

(Billed Monthly)

Wholesale (W2) rate structure is based on a required contribution of an upfront, lump-sum Wholesale System Development Charge and wholesale fee for access to a specified upper limit of Maximum Day and Maximum Hour Demand capacity, a Monthly Service Charge and a Uniform Water Commodity unit rate per thousand gallons of actual usage each billing period. The Commodity Charge listed below includes the cost of service revenue requirement and a wholesale fee equal to 25% of the applicable cost of service.

<u>Monthly Service Charge</u>	\$ 106.20
(no water use included)	
<u>Commodity Charge</u>	\$ 2.80
Charge per 1,000 gallons of consumption	

Minimum Billing:

The Wholesale Agreement will contain minimum consumption requirements. The Wholesale Customer's initial estimates of quantities of such consumptions shall be determined by a registered Professional Engineer in the State of Kansas and based on accepted methods for projection of water consumption and shall be subject to review and approval by the Water District. In the event the periodic consumption is not met, the Wholesale Customer shall be liable for the payment of the remaining commodity charge to meet the minimum consumption requirement, pursuant to terms specified in the

Wholesale Agreement.

Other Provisions For Wholesale Customers:

Other provisions, if any, for each Wholesale Customer will be as specified within the Wholesale Agreement, as approved and/or amended by the Water District Board, between the Water District and each Wholesale Customer.

6. TERMINATION OF BILLING EXEMPTIONS FOR WATER USAGE AT FIRE STATION FACILITIES

The District has traditionally exempted fire stations from the application of rates and charges to the metered service for domestic use at these facilities. Effective with January 1995 billing, this exemption is terminated and all existing and future fire station facilities will be subject to billing at the applicable Retail Commercial water rates.
