## DELMAR WATER TOWER MAINTENANCE

### Hello, Neighbor:

As a part of WaterOne's commitment to maintaining quality service, we will be doing maintenance on the water tower in your area: Delmar Tank, located at 7801 Delmar Street in Prairie Village.

Since you may notice activity on and around the tower, we wanted you to feel informed about what was going on and anticipate some of the questions you may have.

- **What's the project?** Our contractor will be repainting the inside and outside of the water tower. This is required maintenance to keep the tower in good working condition and prolong its useful life. The tower will remain the same silver color as it is today.
- **What's the project timeframe?** The project will last 4-6 weeks between August 31st and November 25th, weather pending.
- **How will this affect me?** We strive to minimize inconvenience when we do work in your neighborhood. You may notice activity on and around the tower and there may be some short-term ambient noise from the project. We do not anticipate any impact to traffic, nor will water service be affected. Onsite construction and clean-up will be completed as quickly as possible.
- **Will it be noisy?** During the project, there should only be 1-2 weeks of low ambient noise (i.e. air compressor, pressure washer). Paint will be rolled-on and brushed on to avoid overspray and unnecessary noise. The contractor must observe quiet hours. Working hours will be 7 AM to 7 PM Monday through Friday, and 8 AM to 6 PM on Saturday. No work will be permitted on Sundays or holidays.
- **Is this a city project?** No, WaterOne is an independent water utility. Officials with the City of Prairie Village are aware of the project but WaterOne is the responsible party.
