

Dear Valued Resident:

Construction is set to begin soon on WaterOne's new pipeline project, a portion of which will be constructed through your neighborhood. The pipeline is being constructed in support of the new Hedge Lane Pump Station, to be located in the rural county near Hedge Lane & 159th Street. As the project gets underway, we want to make ourselves available to answer questions and provide further information.

WaterOne is hosting a Hedge Lane Project Open House for neighborhood residents on Thursday, February 20th from 6 pm – 8 pm at Oregon Trail Middle School, 1800 W. Dennis Avenue, Olathe. We encourage you to come by if you're interested in learning more about the project or have questions.

Representatives from WaterOne, engineering firm Black & Veatch, and construction contractors SJ Louis, BRB, and Kissick will be available to discuss the project timeline, construction details, and answer your questions. This is a casual, open format evening; refreshments provided. "Come as you are" any time between 6 pm and 8 pm; RSVP not necessary.

STAYING INFORMED

During the project, should we need to temporarily take water down we will notify affected households through Notify JoCo alerts. **To ensure that you stay informed, sign-up at www.NotifyJoCo.org.** Enrollment in WaterOne alerts is automatic, once you customize your contact preferences.

You can also follow our progress on the Hedge Lane project at www.WaterOne.org/projects. Follow us on Facebook at www.facebook.com/MyWaterOne and Twitter at www.twitter.com/MyWaterOne.

If at any time further questions arise, please contact:

- **For Alignment and Design:**
Dave Flipse, WaterOne Project Engineer
(913) 895-5765
dflipse@waterone.org
- **For questions regarding easements:**
Randy Freeborn, ROW Coordinator
(913) 895-5772
rfreeborn@waterone.org

Snow Delay

In case of severe weather, the Open House will be re-scheduled to March 19th in consideration of your safety. If the planned February 20th Open House is postponed, we will announce it by noon on Facebook, Twitter, and our website. WaterOne Customer Service will also be informed at 913/895-1800.
